BodaNova glasses aim to be attractive on the eye, comfortable in the hand and, most importantly, robust enough to be used again and again.
With their clean, timeless lines, our glasses will be a fine ornament in your home for a long time to come.

Cocktail

BodaNova's new COCKTAIL is a little gem. Gentle swirls of diarite decorate the entire bowl, creating a timeless floral pattern that adds extra sparkle to every occasion. Seen from above, the decoration creates the sensation of drinking direct from a flower – something that is sure to make every sip even more enjoyable. COCKTAIL is also ideal for serving desserts. An ice-cold sorbet, for example, is the perfect partner for the frosted decoration.

Drink

A welcoming drink, brightly coloured and with the tang of fruit, creates just the right atmosphere when your guests arrive. The open flower that decorates BodaNova's new DRINK glass radiates the right feeling of warmth no matter what the season or the weather outside. DRINK is perfect for genuine cocktail parties where the emphasis is on exotic concoctions. It is also a tribute to Latin American tastes like rum and tequila, mint and lime – and plumes and sequins! DRINK provides the inspiration for a wonderful festive atmosphere and, thanks to the recipes included in the gift pack, you can also learn more about how to mix drinks for your guests. DRINK is also ideal for serving desserts or for use for non-alcoholic drinks.

Whisky

What's a party without WHISKY?
The characteristic diamond pattern on BodaNova's generously proportioned new whisky tumbler leads your thoughts inevitably to Scotland – enough in itself to enhance the flavour of the drink it holds.
WHISKY comes in a 4-pack presentation box, together with four matching coasters.

Beer

Thanks to its easy-going elegance, the new BEER glass transports beer-drinking from the TV sofa and live football broadcasts to the more refined setting of dining and socialising with good friends.
The foot helps BEER to cut an impressive figure on the table, while the diarite decoration emphasises the graceful simplicity of the glass and strikes a careful balance between feminine and masculine expressions to appeal to both men and women. The gift-pack includes four coasters.

Select

Design: Liselotte Henriksen

BodaNova

Design in clear glass is brought to life by light passing through it or by the drink contained within.
 When the glass is holding wine, its silhouette is at its most striking.
 Select was created to be an important yet unobtrusive part of the table.
 The classic light bowl of the glass is in contrast to the obvious weight of the foot. Simplicity emphasizes the drink.

Cutlery

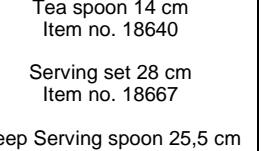

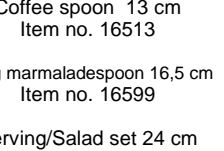

We spend a lot of time using our cutlery, bearing in mind we eat every day, all year round. It can be tricky finding a range that's just as appropriate for a quick breakfast and a special dinner party. But if you can't choose one, why not have two?

BodaNova

Oval Steel has been called a modern classic. Maybe that is what timeless means: when it is impossible to say what year the design left the drawing board. Oval Steel is available with a matt or shiny handle.

Zenit is a good representative of BodaNova's design with pure style. Using natural, simple lines Anders Ljungberg has designed ergonomically and aesthetically attractive cutlery, which is easy and sharp on the eye. Zenit has a matte polish (soft).

French chefs use a particular gourmet spoon to taste their delicacies. After many journeys to France and countless visits to restaurant kitchens, the idea to design our own gourmet spoon arose. In time, this led to an entire range of cutlery.
